

PREFACE

Ever since my first book: 9 Secrets, the Ultimate Success Strategies was released, most of the readers of the book have asked me to make a student edition. This book is the result of encouragement and inspiration from the readers of my first book. They felt this kind of book will help the current generation to shape up their career.

Strategy is a bundle of actions to be taken to achieve a goal. Goal is your blueprint for success. Unless we have a plan or blueprint to construct a building we will not get a constructive result. Therefore it's essential to have a written goal to construct our career. The most important goal of any student is to pass out from their respective institute with flying colours. In this book you have all the strategies to be successful in your student days and in your career thereafter.

If you want to play a game, you need to be aware of the rules of the game. Then only you can play the game well and enjoy. You have to accept your role that you have been given to play. Are you ready to accept the role of a student or getting carried away with the movie heroes?

Student period of our life is to create foundation so that we can grow with strong roots. Most students are looking for immediate result. It takes time to set roots.

Bamboo takes four to five years to set its root before it comes out to grow. Once it comes out on the ground, it grows 4 to 6 inches in a day. While you

6 Student's Blueprint for Success

are setting your roots you may not have enough time to interact with friends and participate in every fun activity. Friends may start teasing you as a fool. People who ever achieved extraordinary result in their lives, were initially criticized or labelled as fool; because they only could see their long-term outcome or vision.

Fear of criticism is one of the biggest obstacles in the path of success. Criticisms are your feedback that you are going to be an extraordinary person in the future. Coal had to go through extreme temperature and pressure to become diamond.

You are a rough diamond; dealing with criticism is polishing the diamond that is you. Wish you all the success in your student life.
